**2025**  
**THE PROS' EQUIPMENT**

## We know exactly what we are doing.

Tasmanian Tiger has been manufacturing professional military and police equipment with great success for more than 25 years. Right from the start, we decided for whom we would develop products with the brand name Tasmanian Tiger. Our focus is always on the professional user who needs perfect equipment for his work. That's why we work together with professionals when designing our products. And that's why we are uncompromising in pursuing some ideas that are very challenging to implement.

For the 2025 season, the focus of development was on Combat Medic and Tactical Medic. In the Combat Medic area, we are presenting the **TT Modular Medic Combat Pack 18**, a small emergency backpack for first aid treatment of the wounded. The **TT Medic Platoon Pack**, on the other hand, with a volume of 57 liters and large, hook-and-loop-fastened transparent pouches, is developed for care in military field hospitals, as is the **TT Medic Container**, a large transport set for medical equipment.

The tactical first-aid pack **TT Modular Medic Pack 38** offers a fully opening main compartment as well as wide-opening front pockets. The narrow **TT IFAK Pouch Vertical** only requires two MOLLE loops for attachment, while the **TT IFAK Pouch Dual VL** is designed to be clipped under a plate carrier.

For the 2025 season, the small mission pack **TT Base Pack Top Load 30** and the special backpacks **TT Escape Pack 20 LT**, **TT Breacher Pack** and **TT Gear Pack ZP** will also be added to the collection. A lightweight, sturdy plate carrier, weight-optimized deployment belts and a weapon pouch for mid-range weapons will also be presented.

All products are precisely tailored to the needs of the user and impress with their excellent product quality, which we can reliably guarantee thanks to production in our own factory.

**TASMANIAN TIGER.** We equip the professionals.

# TASMANIAN TIGER – COMPETENCE IN CARRYING

**Tasmanian Tiger has a long-standing experience in backpack construction and proven expertise in high-performance backpack carrying systems.**

When developing our backpacks, we attach great importance on ergonomic design, durable materials, functionality, and a perfect fit. For long missions with a heavy load, the most important thing is the comfort of the backpack. That is why, in addition to the selection of the right pack sack, the selection of the right carrying system plays a central role.

The heart of a Tasmanian Tiger carrying system revolves around an internal frame structure that transfers the weight of the pack sack to the hip via the hip belt. This transfer assures that pressure is relieved from the shoulders and spine. It is a basic fundamental that the heavier the load the more stable the support system must be.

However, the load transmission should not be completely stiff, but must remain flexible enough to ensure that even in rough terrain, the user can be agile in his/her movements, especially when traversing large obstacles. For perfect load transfer, the carrying system must also function for various sized individuals. To ensure this, most of Tasmanian Tiger carrying systems are adjustable in size and can be custom fit to a wide range of back lengths.

**Because a backpack not only has to fit the application, its respective requirements, and the user, we have developed different carrying systems for different backpack models, shown on the following pages.**

**Tasmanian Tiger – carrying systems for every mission.**

# X1-SYSTEM

The size-adjustable high-end X1 Carrying System was specially developed for high loads over 40 kg. Particular attention was paid to the adjustability, ergonomics and ventilation of the system. Durable materials, multi-layered structures and reinforcements in the right places make the system stable and durable.

Load control straps allow for precise adjustment through two positions

Concave shaped and chambered back padding ensures a perfect fit and good ventilation of the back

Anatomically shaped aluminum bar in the lumbar area helps in optimal adjustment

Lumbar pad with rubberized insert prevents slipping of the backpack

Pull-forward hip belt, is combined with classic front adjustment

Lid is height-adjustable

Padded shoulder straps are ergonomically shaped and can be adjusted in height

Two ergonomically shaped, crossed aluminium bars provide stability and transfer the load to the hip belt

Anatomically fitting hip belt consists of multi-layer padded hip fins with PE reinforcement plates and a lumbar pad; the X1 Plus System has a removable hip belt

**X1+ system,**  
removable hip belt

# V2-SYSTEM

The size-adjustable V2 Carrying System was developed for medium to high loads up to 40 kg. A combination of aluminum and fiberglass bars results in an excellent balance of efficiency and flexibility in load transmission with low own weight. Channels on the back padding ensure good air circulation.

Comfortable shoulder straps  
can be adjusted in height

Fiberglass bars optimize load  
transfer to the hip belt

Lumbar pad with rubberized  
insert prevents slipping of the  
backpack

Pull-forward hip belt, is  
combined with classic  
front adjustment

Lid is  
height-adjustable

Concave-shaped back padding  
provides optimal contact with  
the backpack

Aluminum bars arranged to a  
V provide stability of the back  
system

Multilayer padded hip wings  
are reinforced with a PE plate

## V2 PLUS-SYSTEM

The size-adjustable V2 Plus Carrying System was developed for medium to high loads up to 40 kg. Backpacks with this system offer great adjustability of the back length and can be worn even with fully loaded vests and chest rigs due to the detachable hip belt.

Load control straps allow for precise adjustment through two positions

Two aluminum rods arranged into an implied V direct the load into the reinforced hip belt

Hip belt, which runs under the lumbar pad, can be removed

Pull-forward hip belt, is combined with classic front adjustment

Lid is height-adjustable

Wide, ergonomically shaped shoulder straps can be adjusted in height

Concave-shaped and chambered back padding provides optimal contact with the backpack and good ventilation of the back

Lumbar pad with rubberized insert prevents slipping of the backpack

Conically shaped hip fins are multilayer padded and reinforced with PE plate

# Y2-SYSTEM

The size-adjustable Y2 Carrying System was developed for light loads. Thanks to its design, it offers a wide range of back length adjustability and is suitable for both long and very short backs. Backpacks with this system are mastered with SL (=short to long) in the product name.

Ergonomically padded shoulder straps can be adjusted

Y-shaped system is easily adjustable in height

Hip belt can be replaced

Removable PP back plate with an aluminum rail, that can be individually adjusted to the back, ensures stability and high wearing comfort

Shoulder straps are equipped with a quick-release system

Back padding is ergonomically shaped

## TT MIL OPS PACK 80+24

**Item number:** 7324  
**Color:** 040 black, 331 olive, 346 coyote brown  
**Size / Volume:** 83 x 34 x 21 cm / 80 l + 24 l  
**Weight:** 4,20 kg  
**Material:** CORDURA® 700 den

Robust backpack with size-adjustable V2 Carrying System. With its high-performance carrying system, which can be adjusted to your own back length, the backpack is suitable for transporting heavy loads. The toplayer has a large zippered front opening, a separate bottom compartment, side pockets and a height-adjustable lid with lid compartment. The front and sides are fitted with MOLLE. The backpack also has a drawstring system on the front and a detachable helmet holder.

[1] V2 Carrying System [2] Removable section between main and bottom compartment [3] Snow skirt with drawstring and zipper [4] Load control straps [5] Height-adjustable chest belt [6] Special construction whereby hipbelt-fixation is re-directed to allow for single-handed adjustment [7] Compression around perimeter of base [8] Durable handle [9] Height-adjustable lid with zip compartment ▶

## TT MIL OPS PACK 80+24 IRR

**Item number:** 8830  
**Color:** 332 stone grey olive  
**Size / Volume:** 83 x 34 x 21 cm / 80 l + 24 l  
**Weight:** 4,20 kg  
**Material:** CORDURA® 500 den IRR

[10] Hydration system compatible [11] Large zippered front opening into the main compartment [12] Removable side pockets with zipper, each with a volume of 12 liters [13] Insert pockets on both sides [14] 2 loops for ice tools, poles or equipment [15] Device holder for PRC 117, TRM 6020/21 or SEM 70 [16] Helmet attachment [17] Front and sides with MOLLE system. Sides: Width: 5 Molle loops, length: 5 Molle loops [18] Lid with MOLLE system: 2 x: Width: 7 Molle loops, length: 1 Molle loop

The items are equipped with the same features. Item 8830 is made of Cordura® 700 den with IRR treatment.

## TT MIL OPS PACK 30

**Item number:** 7323  
**Color:** 040 black, 331 olive, 346 coyote brown  
**Size / Volume:** 58 x 30 x 16 cm / 30 l  
**Weight:** 1,20 kg  
**Material:** CORDURA® 700 den

Small, robust mission backpack with padded back and removable waist belt. The TT Mil Ops Pack 30 features a MOLLE system and a lacing system on the front, compression straps and two side pockets. It also offers a hydration system preparation. In the lid is a lid compartment with zipper.

[1] Padded Back Carrying System Basic [2] Snow guard with drawstring under the lid ▶

## TT MIL OPS PACK 30 IRR

**Item number:** 8829  
**Color:** 332 stone grey olive  
**Size / Volume:** 58 x 30 x 16 cm / 30 l  
**Weight:** 1,20 kg  
**Material:** CORDURA® 700 den IRR

[3] Height-adjustable chest belt [4] Removable hip webbing [5] Side compression straps [6] Zipper compartment in the lid [7] Hydration system compatible [8] Side pockets [9] Inside pocket [10] Zigzag rubber lacing [11] Loop for ice tool, poles or equipment [12] MOLLE system [13] MOLLE system on the lid

The items have identical features. Article 8829 is made of Cordura® 700 den with IRR treatment.

## TT RANGE PACK MK II

**Item number:** 7605  
**Color:** 331 olive, 346 coyote brown  
**Size / Volume:** 84 x 35 x 27 cm / 90 l + 10 l  
**Weight:** 4,40 kg (without detachable pockets 3,50 kg)  
**Material:** CORDURA® 700 den

Modular, large capacity backpack for individual combatants on mission for several weeks. The front pocket of the backpack can be detached and used as a daypack, the side pockets are the same as the TT Tac Pouch 8 SP (item 7773) and can be used on any appropriately designed MOLLE panel.

[1] X1 Carrying System [2] Packsack with snow guard [3] Divided main and bottom compartments [4] Fixation for hiking poles or ice axes [5] Height-adjustable chest belt [6] Side compression straps [7] Compression around perimeter of base [8] Detachable lid with 3 zip pockets (2 x outside, 1 x inside) [9] Two ports for drinking tubes on the lid [10] Hydration system compatible [11] Additional detachable side pockets (each 5 l, 7773 TT Tac Pouch 8 SP) [12] Front pocket unzips for use as a daypack (7 l) [13] Weight of main backpack including front- and side pockets = 4,40 kg // Weight of main backpack without front and side pockets = 3,50 kg [14] MOLLE system on the sides [15] Pull-forward hip belt, combined with classic front adjustment

## TT PATHFINDER MK II

**Item number:** 7622  
**Color:** 331 olive, 346 coyote brown  
**Size / Volume:** 84 x 35 x 22 cm / 80 l  
**Weight:** 3,25 kg  
**Material:** CORDURA® 700 den

Fully-fledged combat backpack for several days in the field. There is a large, variable volume compression flap on the front for helmets etc. The MOLLE system on the sides is used to attach additional pockets.

[1] V2 Carrying System [2] Packsack with snow guard [3] Removable partition between main and bottom compartment [4] Fixation for hiking poles or ice axes [5] Height-adjustable chest belt [6] Side compression straps [7] Compression around perimeter of base [8] Variable volume compression flap e.g. to attach a helmet [9] Handle on front and back [10] Detachable lid, divided into 3 sections [11] Two ports for drinking tubes on the lid [12] Rain cover [13] Hydration system compatible [14] Side pockets [15] MOLLE system on all the important attachment areas [16] Pull-forward hip belt, combined with classic front adjustment

## TT RAID PACK MK III

**Item number:** 7711  
**Color:** 040 black, 331 olive, 346 coyote brown  
**Size / Volume:** 65 x 32 x 24 cm / 52 l (48 l + 2x 2 l)  
**Weight:** 2,90 kg  
**Material:** CORDURA® 700 den

Classic military backpack with a total capacity of 52 liters and V2 Plus Carrying System. The TT Raid Pack MK III has a main compartment with a volume of 48 liters and two fixed side pockets with a volume of 2 liters each. MOLLE on the front, the lid, the side pockets and on the hip belt allows for individual extension. The V2 Plus Carrying System of the backpack is designed for a weight of up to approx. 40 kilograms and offers great variability when adjusting the back length. Due to the removable hip belt, the backpack can also be carried with fully equipped chest rigs and vests. The hip belt can be used separately as a Warrior Belt.

[1] V2 Plus Carrying System [2] Divided main and bottom compartments [3] Fixation for hiking poles or ice axes [4] Height-adjustable chest belt [5] Removable, padded hip belt [6] Side compression straps ▶

## TT RAID PACK MK III IRR

**Item number:** 7209  
**Color:** 332 stone grey olive  
**Size / Volume:** 65 x 32 x 24 cm / 52 l (48 l + 2x 2 l)  
**Weight:** 2,90 kg  
**Material:** CORDURA® 700 den IRR

[7] Compression around perimeter of base [8] Handles at sides [9] Lid with gear loops [10] Easy-access pocket on top of lid [11] Hydration system compatible [12] Stitched bellow pocket with water drain [13] Gear loops [14] Document storage pocket on the inside of the lid [15] Capacity: main backpack 48 l, side pockets each 2 l [16] Antenna ports into the main compartment [17] Hip belt can be used separately as a Warrior Belt [18] Side pockets with external MOLLE system [19] MOLLE system on all the important attachment areas [20] Pull-forward hip belt, combined with classic front adjustment

The items are equipped with the same features. Item 7209 is made of Cordura® 700 den with IRR treatment.

## TT MODULAR TROOPER PACK

**Item number:** 7263  
**Color:** 040 black, 331 olive, 346 coyote brown  
**Size / Volume:** 62 x 34 x 19 cm / 55 l  
**Weight:** 2,75 kg  
**Material:** CORDURA® 700 den

Universal military backpack with two front pockets and the V2 Plus Carrying System. Based on the predecessor model, the TT Modular Trooper Pack offers an optimized arrangement and new functional features. The main compartment opens completely, and the special zipper routing makes it possible to use the pack as a top loader. The back panels of the front and main compartment feature MOLLE hook-and-loop for customized loading, and both front pockets have zipper mesh pouches to organize your gear. Laser-cut MOLLE on the front and sides allow you to add pouches or extra gear as you see fit. The backpack has an integrated rain cover and a removable hip belt that can also be used as a Warrior Belt. The carrying system can be adjusted to different back lengths.

[1] Capacity main backpack 45 l, upper front pocket 2 l, lower front pocket 8 l ▶

## TT MODULAR TROOPER PACK MC

**Item number:** 7264  
**Color:** 394 multicam  
**Size / Volume:** 62 x 34 x 19 cm / 55 l  
**Weight:** 2,65 kg  
**Material:** CORDURA® 500 den

[2] V2 Plus Carrying System [3] Side compression [4] Durable, reinforced handle [5] Front and top opening lid with access to the main compartment [6] Hydration system compatible [7] Integrated rain cover inside the bottom compartment [8] Side pockets [9] Gear loops on the front [10] Antenna ports into the main compartment [11] Removable hip belt, can be used separately as a Warrior Belt [12] MOLLE system on both sides and front pocket [13] Laser-cut MOLLE system [14] MOLLE hook-and-loop on the inside for limitless modularity [15] 2 front pockets with organizer, mesh pockets and MOLLE hook-and-loop [16] Pull-forward hip belt, combined with classic front adjustment

The items are equipped with the same features. Item 7264 is made of Cordura® 500 den.

## TT BASE PACK 75

**Item number:** 7934  
**Color:** 040 black, 331 olive, 346 coyote brown  
**Size / Volume:** 77 x 33 x 26 cm / 75 l  
**Weight:** 3,12 kg  
**Material:** CORDURA® 700 den

Basic mission backpack with 75 liter volume and modular expansion options. The volume of the TT Base Pack 75 can be expanded up to 90 liters by removing the lid and using the roll-top snow guard. The shaped head recess ensures freedom of movement when heavily loaded. The backpack is equipped with MOLLE on all important attachment surfaces.

[1] V2 Carrying System [2] Preformed head cavity [3] Divided main and bottom compartments [4] Fixation for hiking poles or ice axes [5] Roll-top snow guard (without lid) can be used in two locking positions [6] Volume expandable from 75 l to 90 l through roll-top snow guard [7] Height-adjustable chest belt [8] Pull-forward hip belt, combined with classic front adjustment

## TT BASE PACK 75 IRR

**Item number:** 7935  
**Color:** 332 stone grey olive  
**Size / Volume:** 77 x 33 x 26 cm / 75 l  
**Weight:** 3,12 kg  
**Material:** CORDURA® 700 den IRR

[9] Side compression straps [10] Compression around perimeter of base [11] Lid with gear loops [12] Easy-access pocket on top of lid [13] Height-adjustable, detachable lid [14] Hydration system compatible [15] Gear loops [16] First aid compartment in lid [17] Antenna ports into the main compartment [18] Front and sides with MOLLE system. Sides: Width: 6 / 3 Molle loops, length: 8 / 1 Molle loops [19] Lid with MOLLE system: width: 7 Molle loops, length: 4 Molle loops

**Items 7934 and 7935 have identical features. Item 7935 is made of Cordura® 700 den with IRR treatment.**

**The items have identical features. Items 8707 and 8716 hold 45 liters, items 7978 and 8741 hold 65 liters. Items 8716 and 8741 are made of Cordura® 500 den.**

## TT BASE CARRIER

**Item number:** 7330  
**Color:** 331 olive, 346 coyote brown  
**Size:** 65 x 35 x 5 cm  
**Weight:** 2,50 kg  
**Material:** CORDURA® 700 den

Flexible „soft“ load carrier for transporting heavy loads. The TT Base Carrier features a high-performance internal backpack carrying system with three-dimensionally shaped, removable hip belt. The carrier platform features a MOLLE system as well as side loops for various attachments. The TT Base Carrier can be flexibly built up with modular elements, for example with the TT Base Carrier Flap (item 7332) or the TT Front-Side Pouch SET (Item 7391). The TT Base Carrier Pack (Item 7374) completes the load carrier to a full-fledged backpack. Carrying capacity up to 55 kg.  
 [1] X1 Plus Carrying System [2] Load control straps [3] Height-adjustable chest belt [4] Side compression straps [5] Internal reinforced frame system [6] Loop system for various fastening systems [7] Compatible with TT Base Carrier Pack (item 7374), TT Front-Side Pouch 16 Set (item 7391), TT Modular Quiver Set (item 7392), TT Base Carrier Flap (item 7232)

## TT BASE CARRIER PACK 65

**Item number:** 7374  
**Color:** 331 olive, 346 coyote brown  
**Size / Volume:** 70 x 30 x 24 cm / 65 l  
**Weight:** 1,16 kg  
**Material:** CORDURA® 700 den / 420 HD Nylon FD

The TT Base Carrier Pack complements the TT Base Carrier to a full-fledged backpack and is attached to the load carrier with hooks. The pack sack pulls open completely for easy operation. In addition, for use without the load carrier, it has attachment options on the back for attaching the shoulder and waist belt of the TT Base Carrier.  
 [1] Compression straps [2] Handle [3] Main compartment with lockable slider [4] Antenna ports into the main compartment [5] Pack sack for the TT Base Carrier (item 7330) [6] Possibility to mount the shoulder straps and the waist belt of the TT Base Carrier (item 7330) [7] Can be fixed to the TT Base Carrier (item 7330) with hooks [8] MOLLE system on all the important attachment areas [9] Laser-cut MOLLE system [10] MOLLE hook-and-loop on the inside for limitless modularity

## TT BASE CARRIER FLAP

**Item number:** 7332  
**Color:** 331 olive, 346 coyote brown  
**Size:** 75 x 31 cm  
**Weight:** 400 g  
**Material:** CORDURA® 700 den, T-Square RIP

to Video

Carrying flap for the TT Base Carrier. The TT Base Carrier Flap is a precisely fitting supplementary module for the TT Base Carrier (item 7330). The flap is attached to the carrier platform with buckles and hooks.

- 1] Carrying flap made of CORDURA® laminate, fastening with hook system  
 2] Can be fixed to the TT Base Carrier (item 7330) with hooks

## TT FRONT-SIDE POUCH 16 SET

**Item number:** 7391  
**Color:** 040 black, 331 olive, 346 coyote brown  
**Size / Volume:** 60 x 20 x 17 cm, 23 l + 23 l  
**Weight:** 810 g (Pair)  
**Material:** 420 HD Nylon FD / CORDURA® 700 den

Large front or side pouch set for backpacks. The TT Front-Side Pouch 16 Set, each pouch with a volume of 23 liters, offers attachment options for use as front pouches as well as right or left side pouches on the backpack. Especially suitable for the TT Base Carrier (item 7330).

- [1] Handles [2] Can be opened completely by double zippers [3] Daisy chain on the front [4] Sold in pairs [5] Can be attached to the TT Base Carrier (item 7330) with hooks and compressions straps

# TT MISSION PACK MK II | MC | IRR

coyote brown

Proven combat backpack with a capacity of 37 liters, two main compartments and several inner pockets. The TT Mission Pack MK II offers several inner pockets and also features MOLLE hook-and-loop lining in the main compartment for individual loading or modular extensions. On the sides and the flat zip front pocket the backpack is equipped with MOLLE in laser-cut design. A side zip pocket, accessible from the outside, is provided for documents. The backpack has three tube or antenna openings in the main compartment, so that a drinking bladder can also be accommodated. A rain cover is stowed in the bottom compartment. The hip wings with zip pockets are removable.

# TT MODULAR COMBAT PACK | MC | IRR

olive

Universal small combat backpack with two front pockets and elastic side pockets. Based on the predecessor model, the Modular Combat Pack has a clean new look, optimized features and MOLLE hook-and-loop in the main compartment for customized modular add-ons. Laser-cut MOLLE on the front and sides mean you can combine it with other gear. With a main compartment that opens completely and the special zipper routing it's possible to use the pack as a top loader. The shoulder straps can be adjusted in length in order to wear the backpack over vests.

[1] Padded Back Carrying System [2] Ergonomically padded back with aluminum support elements [3] Ergonomically formed, padded shoulder straps [4] Padded hip fins with zippered pockets, removable with hook-and-loop [5] Side compression [6] Hydration system compatible [7] Capacity: Main compartment 17 l + upper front pocket 2 l + lower front pocket 3 l [8] Side pockets [9] Small mesh pockets inside, for storage of small parts such as batteries, etc [10] 2 front pockets with zipped compartments [11] Hook-and-loop closure patch on the frontside (loop) [12] Detachable rear panel with aluminium rail (can be shaped individually) [13] MOLLE hook-and-loop on the inside for limitless modularity [14] Front and sides with MOLLE system in laser-cut design for optional attachment of additional pockets [15] Length-adjustable shoulder straps make carrying large body armor possible

# TT MODULAR COMBAT PACK 24 SL | MC | IRR

olive

Small combat backpack with extremely variable carrying system. The newly developed Y2 Carrying System of the TT Modular Combat Pack 24 SL offers a very wide range of variation in the adjustment of the back length and is suitable for both petite and very tall people. The main compartment of the 24-liter backpack is lined with MOLLE hook-and-loop areas for individual customization. The TT Modular Combat Pack 24 SL also features three front pockets with dividers, the lower one has room for three magazines. The shoulder straps can be adjusted in length to wear the backpack over protective vests.

[1] Ergonomically padded back with aluminum support elements [2] Y2 Carrying System [3] Ergonomically formed, padded shoulder straps [4] Removable hip belt [5] Padded hip fins with zippered pockets, removable with hook-and-loop [6] Side compression [7] Hydration system compatible [8] Volume: main compartment 9 l, upper front pocket 2 l, middle front pocket 1 l, lower front pocket 2 l [9] Small mesh pockets inside, for storage of small parts such as batteries, etc [10] Hook-and-loop patch on the frontside (loop) [11] 3 front pockets with zippered compartments [12] Strap system to hold additional equipment [13] Detachable rear panel with aluminium rail (can be shaped individually) [14] Laser-cut MOLLE system [15] MOLLE hook-and-loop on the inside for limitless modularity [16] Front and sides with MOLLE system. NEW

## TT ESCAPE PACK 20 LT

**Item number:** 8775  
**Color:** 021 titan grey, 331 olive  
**Size / Volume:** 49 x 27 x 12 cm / 20 l  
**Weight:** 370 g  
**Material:** 70D Nylon Rip FD

Lightweight folding backpack with 20 liter volume. The TT Escape Pack 20 LT can be stowed small and flat in its own front pocket. Due to its low weight and packing volume, it is an ideal complement to your equipment as an additional backpack.

[1] Mesh shoulder straps [2] Height-adjustable chest belt [3] Removable hip webbing [4] Compression straps [5] Handle [6] Mesh pockets on sides [7] Front compartment with zipper [8] Daisy chain on the front [9] Lightweight, easy-to-use and rugged materials [10] Stowable in the front pocket [11] X-shaped hook-and-loop patch (fleece) on the front

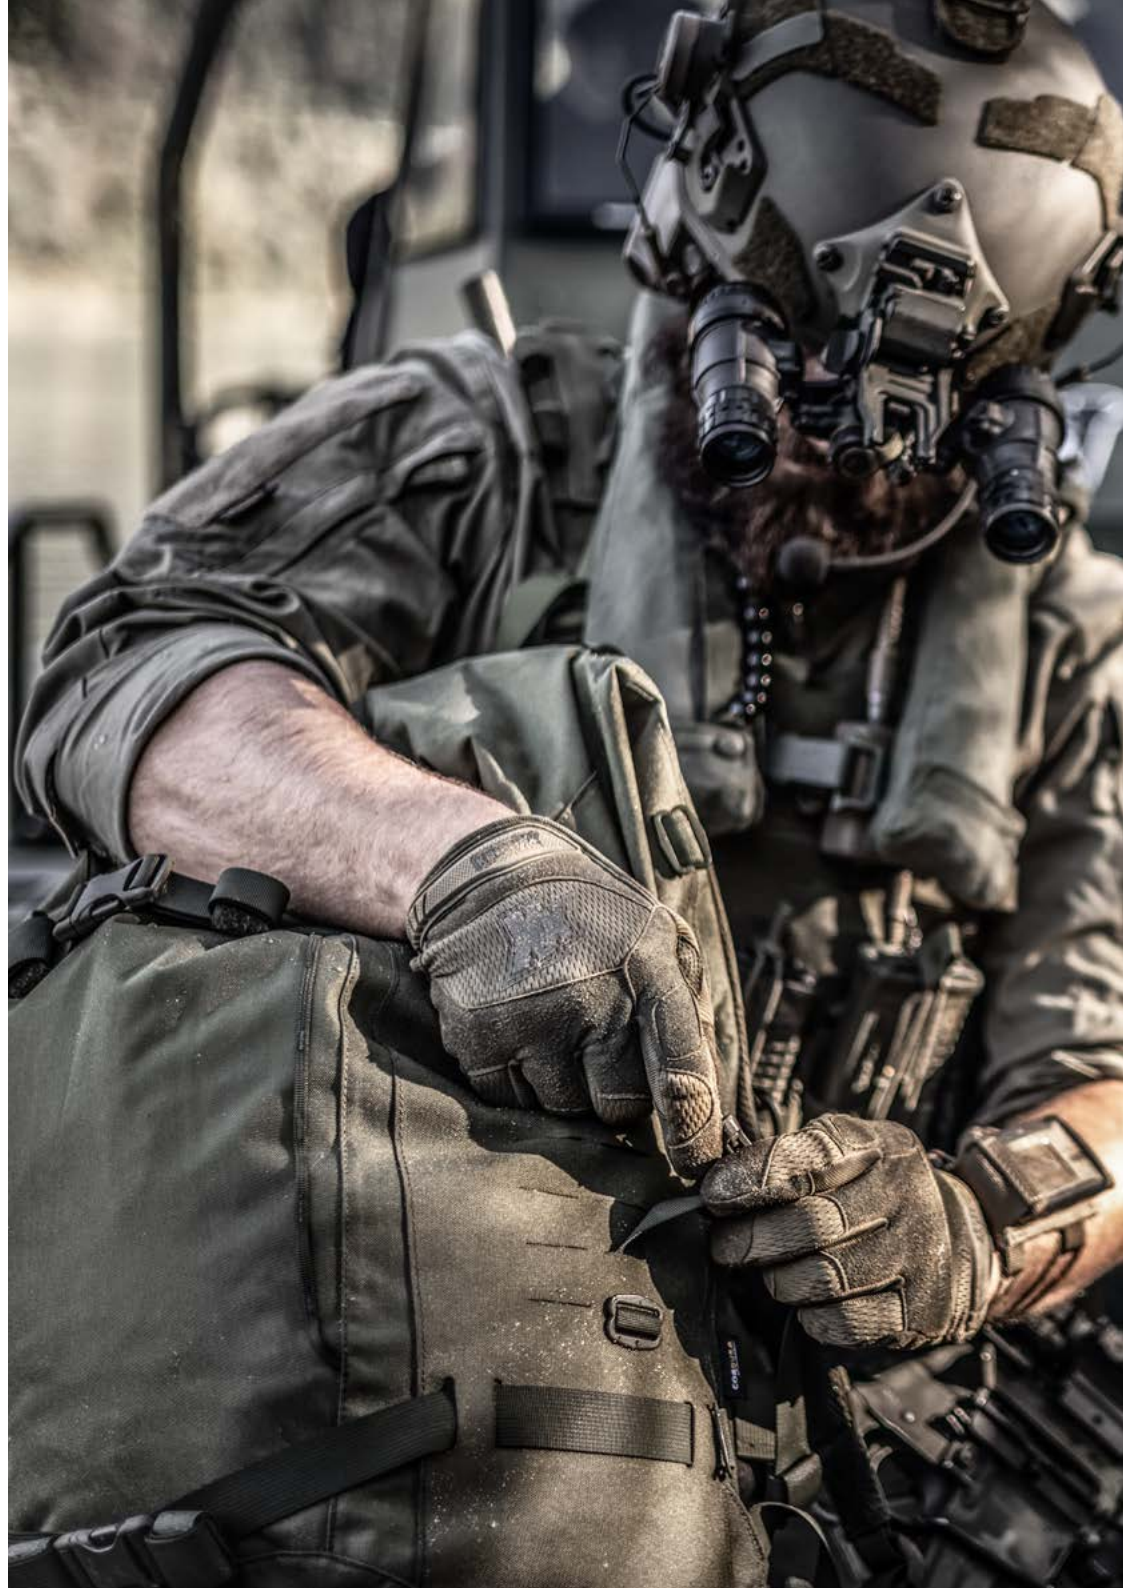

## TT SENTINEL 35 WP

**Item number:** 7894  
**Color:** 040 black, 331 olive  
**Size / Volume:** 58 x 27 x 18 cm / 35 l  
**Weight:** 1,10 kg  
**Material:** CORDURA® 500 den

Waterproof mission backpack with 35 liters volume. The TT Sentinel 35 WP is suitable for light, if necessary also voluminous equipment. It has a roll-top closure and can be compressed by completely circumferential straps if necessary. MOLLE in laser-cut design on the sides allows for customization. Daisy chains on the front can be used to hold additional gear.

[1] Padded Back Carrying System [2] Roll-top with two closure options, upwards or sideways [3] Two compression straps around the perimeter of the pack [4] Material and sealed seams waterproof up to 10000 mm [5] IP64 tested (dustproof and protected against splashing water on all sides) [6] Strap system to hold additional equipment [7] Laser-cut MOLLE system [8] Sides with MOLLE system: width: 2 Molle loops, length: 4 Molle loops

## TT MODULAR CAMERA PACK 30

**Item number:** 7192  
**Color:** 040 black, 331 olive  
**Size / Volume:** 58 x 28 x 19 cm / 30 l  
**Weight:** 2,40 kg  
**Material:** CORDURA® 700 den

Modular backpack conceived as a camera and documentation pack. The main compartment features front access and an extra top opening so you can quickly grab your camera. The interior of the backpack has adjustable partitions for cameras and lenses; the partitions can of course be removed completely. A little organizer pocket for memory cards and filters can also be removed. The backpack has a lid pocket and deep side pockets that are meant to hold a tripod and can be secured with lateral compression straps. The padded carrying system, which includes the padded hip belt, makes the backpack super comfortable to carry. The hip belt with laser-cut MOLLE can also be used to attach accessories, for example lens pouches, and can be removed at any time. The shoulder strap also has a camera fastener. The rain cover in the bottom pouch of the backpack completes the list of features. [1] Padded Back Carrying System [2] Height-adjustable chest belt [3] Compression strap [4] Handles [5] Lockable zipper slider [6] Lid with zip pocket [7] Integrated rain cover inside the bottom compartment [8] Side pockets [9] Hook-and-loop closure patch on the frontside (loop) [10] Zipped front opening [11] Large zipped opening [12] Functional interior layout for camera and accessories [13] Camera holder on the shoulder strap [14] Tripod fixation [15] Removable zip-up bag [16] Hook-and-loop patch on the inside (loop) [17] Removable hip belt, can be used separately as a Warrior Belt [18] Laser-cut MOLLE system [19] Detachable rear panel with aluminium rail (can be shaped individually)

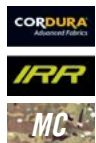

# TT MODULAR PACK 30 | MC | IRR

coyote brown

Modular universal combat backpack. The backpack has a lid pocket and laser-cut MOLLE on the sides and front. The front opening of the backpack pulls up completely. The insides have hook-and-loop sections for individual features. The hip fins are detachable. Comes with three hook-and-loop fastening accessories pouches and a hook-and-loop weapon holster.

[1] Padded Back Carrying System [2] Length-adjustable shoulder straps [3] Padded hip fins with zippered pockets, removable with hook-and-loop [4] Side compression on the inside [5] Lid pocket [6] Small organizer in the lid pocket [7] Zigzag rubber lacing [8] Weight of empty backpack = 1,65 kg // Weight of backpack including accessories = 1,95 kg [9] Antenna ports into the main compartment [10] Detachable rear panel with aluminium rail (can be shaped individually) [11] MOLLE hook-and loop on the inside for limitless modularity [12] Including 3 hook-and-loop fastening accessories pouches [13] Including weapon holster (hook-and-loop fastening)

## TT MODULAR TAC PACK 28

**Item number:** 7399  
**Color:** 021 titan grey, 040 black, 331 olive, 346 coyote brown  
**Size / Volume:** 52 x 30 x 14 cm / 28 l  
**Weight:** 1,35 kg  
**Material:** CORDURA® 700 den

Modular loadable daypack with 28 liters of volume. The TT Modular Tac Pack 28 is also suitable for loading more weight due to the reinforcement of the back system with a PE plate and an aluminum rail. For this purpose, it also has a preparation for attaching the sturdy TT Molle Hip Belt (a simple webbing hip belt is included). The backpack features a fully expandable main compartment with shallow mesh pockets, four small mesh side pockets, and MOLLE hook-and-loop areas for customization. The MOLLE system on the front pocket and sides can be used to attach additional gear. There is also an attachment option for tripods or poles. Two completely circumferential compression straps are used for volume adjustment ▶

## TT MODULAR TAC PACK 28 IRR

**Item number:** 7325  
**Color:** 332 stone grey olive  
**Size / Volume:** 52 x 30 x 14 cm / 28 l  
**Weight:** 1,35 kg  
**Material:** CORDURA® 500 den IRR

[1] Padded Back Carrying System [2] Height-adjustable chest belt [3] Removable webbing hip belt [4] Preparation for hip belt fixation (item 7286 TT MOLLE Hip Belt) [5] Two removable, fully wraparound compression straps [6] Extra-durable handle [7] Hydration system compatible [8] Side attachment option through bungee cord, e.g. for sticks or tripods [9] Flat mesh pockets inside [10] Front pocket with zipper [11] Detachable rear panel with aluminium rail (can be shaped individually) [12] MOLLE system on both sides and front pocket [13] Laser-cut MOLLE system [14] MOLLE hook-and-loop on the inside for limitless modularity

The items are equipped with the same features. Item 7399 is made of Cordura® 700. Item 7325 is made of Cordura® 500 den with IRR treatment.

Size / Volume:	45 x 26 x 13 cm / 16 l		
Weight:	1,36 kg		
Material:	CORDURA® 700 den	CORDURA® 500 den	CORDURA® 700 den IRR

Escape and survival backpack for personal equipment. The TT Survival Pack offers the right size and equipment for the most important survival utensils. The fully expandable main compartment features six pockets of varying sizes with transparent lids, four of which can be removed. The main compartment is also covered with a large MOLLE hook-and-loop area, which allows for individual additions. The bottom compartment contains a double-sided rain cover (one side with stripes in warning orange) and a tac marker. Two shallow zippered compartments on the front are great for storing documents, for example. Additional pockets or panels can also be hooked into the existing hooks on the front. Backpack shoulder straps as well as carrying handles can be stowed when the backpack is stored in vehicles.

[1] Padded back [2] Two stowable shoulder straps [3] Carrying handles can be stowed in side pockets [4] Height-adjustable chest belt [5] Hook-and-loop patch on the frontside (loop) [6] 2 zipped front compartments [7] Internal variable fixation points [8] Daisy chain on the front [9] Includes hook-and-loop strips that can be labeled [10] Integrated reversible rain cover with marker system in the bottom compartment [11] 2 removable, hook-and-loop inner pockets (4 l and 2,5 l) with transparent lid [12] 4 fixed inner pockets (1x 6 l, 1x 2,5 l, 2x 0,5 l) with transparent lid [13] Separate compartment for the use of a hydration system [14] Integrated visual markers [15] Large MOLLE hook-and-loop patch inside [16] 2 hooks for attaching additional pouches or panels on the front side

# TT MODULAR GUNNERS PACK | MC | IRR

olive

Light, tactical deployment backpack for modular use. The materials used for this deployment backpack are very light, making it super easy to handle. It has a flat main compartment that is hydration system compatible, and the back panel is fitted with MOLLE hook-and-loop for customizable loading of your gear. The upper front pocket of the backpack is a flip-top behind which you can attach a magazine holder (three M4 magazines or 4 pistol / MP7 magazines, included with purchase). Both middle front pockets are removable and behind each is a MOLLE hook-and-loop surface. Both the TT Tac Pouch 12 (item 7862) or the TT 2 SGL Backup Mag Pouch M4 (item 7811) can be attached to the lower front pocket. The backpack has a MOLLE reverse system on the back so you can integrate it into a plate carrier. You can also use an included adapter to attach it to plate carriers.

[1] Hydration system compatible [2] Main compartment opens out completely [3] One narrow main compartment [4] Hook-and-loop strips for name tag [5] Capacity: main compartment 9 l, upper front pocket 2 l, middle front pockets each 1 l, lower front pocket 1 l [6] Removable bungee cord compression [7] Weight backpack without shoulder straps: 735 g [8] Interchangeable magazine inserts for 3 x M4 (PMAG) magazines (50 g), 4 x pistol / MP7 magazines (40 g) [9] MOLLE reverse system [10] Laser-cut MOLLE system [11] MOLLE hook-and-loop on the inside for limitless modularity [12] MOLLE system on the upper front pocket [13] Removable center pockets, underneath MOLLE hook-and-loop [14] Combinable with TT Plate Carrier QR LC as rear section

# MEDICAL EQUIPMENT

FOCUS COMBAT MEDIC

# COMBAT MEDIC

We recommend these Tasmanian Tiger products in particular for rescuing wounded persons on the front line. They are designed for immediate first aid treatment of the injured persons and for use at the CCP. The mobile, clearly structured backpack systems can also be used in medical vehicles, in makeshift Role 1 facilities and in military field hospitals in the rear area of combat units.

We present the **TT Modular Medic Combat Pack 18**, a tactical emergency backpack that folds out to the side, the **TT Medic Platoon Pack** with a volume of 57 liters (plus flexible side pockets) and large, hook-and-loop-fastened transparent pouches inside, as well as the **TT Medic Container**, a large transport set for medical equipment with two modules. The modules can be hung next to each other or one below the other and can also be supplemented with additional modules.

Tactical emergency backpack with all-round zipper, opening to the side and with robust handles on three sides. The TT Modular Combat Pack 18 has three front pockets with different internal compartments for quick access to materials. They are labeled with hook-and-loop strips including a snap light insert. There are two attachments for tourniquets on each side. The backpack has a full circumferential zipper and folds open to the side. The compact shape when open allows clear access to the materials and quick removal. The main compartment is equipped with two removable panels made of lightweight, sturdy Tegris® material, which can be equipped individually. It also has removable transparent pouches with hook-and-loop strips and a glow-in-the-dark insert for color coding, a removable IV bag pouch and a marked insert pocket for patient cards. There is a compression bag for a rescue sling at the bottom of the backpack. 2 sturdy handles on the sides are used to transport the wounded out of the danger zone.

[1] Padded Back Carrying System [2] Stowable, padded and removable shoulder straps [3] 2 carrying handles for hanging the backpack vertically [4] Handle [5] Handles for transporting the wounded [6] 3 front pockets with organizer, mesh pockets and elastic fastenings [7] Scissors bag [8] Tegris 12 layers [9] Can be carried horizontally or vertically [10] Removable SRPP panel (23x13.5 cm), Laser-cut hole and slot pattern for bungee cord fixation and hook-and-loop fastening [11] Removable SRPP panel (23x26 cm), Laser-cut hole and slot pattern for bungee cord attachment and hook-and-loop fastening [12] Loops to hang the Medic Pack horizontally when open [13] Compression bag attached to the bottom for a rescue sling [14] Lateral laser-cuts for tourniquet attachment [15] Transparent pouches with snap light insert [16] Hook-and-loop patches on the front pockets (fleece) with snap light insert [17] MOLLE hook-and-loop on the inside for limitless modularity [18] Removable infusion bag 240 x 215 x 75 mm [19] Including adapter for fixation on plate carriers

FOCUS TACTICAL MEDIC

# TACTICAL MEDIC

The Tasmanian Tiger products in the Tactical Medic category are designed for both special police units and civilian use. They are used for the initial treatment of injured persons, where subsequent care is ensured by the medical infrastructure.

For the 2025 season, we present the first aid backpack **TT Modular Medic Pack 38** as a new product. In addition to the fully opening main compartment, it also offers wide-opening front pockets and a wide-opening lid compartment for quick access to medical equipment. And there is as well a removal option access to disposable gloves on the front. The narrow **TT IFAK Pouch Vertical** only requires two MOLLE loops for attachment, and the **TT IFAK Pouch Dual VL** can be clipped below a plate carrier. Both pouches are suitable for universal use.

**Material:** T-Square Rip FD

Padded laptop and tablet sleeve attached with hook-and-loop in modular TT backpacks. The TT Modular Compu Sleeve is designed for 15-inch laptops and has a second sleeve for a tablet (24.5 x 18 cm). The laptop sleeve fits into the modular TT backpacks in both 30 and 45 liter sizes. It can also be equipped with a carrying strap.

[1] Durable, reinforced handle [2] Padded 15.4" laptop compartment [3] Hook-and-loop closure [4] All-round padded tablet compartment (24.5 x 18cm) [5] Removable hook-and-loop fastening attachments for modular systems on the back side [6] To be used on shoulder straps

## TT MULTIPURPOSE SLING MK II

**Item number:** 7387  
**Color:** 040 black, 331 olive, 346 coyote brown  
**Size:** 150 x 5,5 cm  
**Weight:** 280 g (set)  
**Material:** Nylon Webbing

Padded carrying strap with various carrying and attachment options. Per plug-in buckle, either a weapon hook, a strap for strap eyelets or a 3 mm reep cord for cameras (2 strings of 3 mm diameter each) can be threaded. The length adjustment is integrated in the strap deflection. The maximum load of the camera suspension is 85 kilograms and it should be replaced when the inner white core becomes visible.

[1] Integrated length adjustment [2] Padded neck / shoulder strap [3] Made from 25 mm webbing [4] Interchangeable ends: rifle hook, camera sling (3 mm) or webbing for sling swivels

## TT MODULAR CAMERA PACK 30

**Item number:** 7192  
**Color:** 040 black, 331 olive  
**Size:** 58 x 28 x 19 cm / 30 l  
**Weight:** 2,40 kg  
**Material:** CORDURA® 700 den

Modular backpack conceived as a camera and documentation pack. The focus here is on comfort and usability. The main compartment features front access and an extra top opening so you can quickly grab your camera. The interior of the backpack has adjustable partitions for cameras and lenses; the partitions can of course be removed completely. A little organizer pocket for memory cards and filters can also be removed. The backpack has a lid pocket and deep side pockets that are meant to hold a tripod and can be secured with lateral compression straps. Laser-cut MOLLE on the sides and front can be used to add gear as you see fit. The padded back panel system, which includes the padded hip belt, makes the backpack super comfortable to carry. The hip belt with laser-cut MOLLE can also be used to attach accessories, for example lens pouches, and can be removed at any time. The shoulder strap also has a camera fastener. The rain cover in the bottom pouch of the backpack completes the list of features.

[1] Padded Back carrying system [2] Height-adjustable chest belt [3] Compression strap [4] Handles [5] Lockable zipper slider [6] Lid with zip pocket [7] Integrated rain cover inside the bottom compartment [8] Functional interior layout for camera and accessories [9] Camera holder on the shoulder strap [10] Removable zip-up bag [11] Removable hip belt, can be used separately as a Warrior Belt [12] Laser-cut MOLLE system [13] Removable back plate with aluminum rail (individually formable)

# TACTICAL EQUIPMENT

The **ZP Series** from Tasmanian Tiger allows the quick change of pre-configured modules on the appropriately equipped plate carrier: The **TT Plate Carrier QR LC ZP** features zippers on the back, the panels and packs are simply inserted and zipped on. The plate carrier is delivered including a zipped-on panel, but the **TT Molle Panel ZP** is also available separately as an interchangeable panel. In addition, the tactical **TT Operator Pack ZP**, the emergency pack **TT Medic Assault Pack S ZP**, the breacher pack **TT Tool Pack ZP** and the breacher pack **TT Gear Pack ZP** are available as zip-on modules. Furthermore, the zippered MOLLE strips included in each case provide the option of attaching them to all plate carriers with six MOLLE stripes via the MOLLE system.

**\*\* All marked items have zippered MOLLE strips with zippers for mounting**

## TT PLATE CARRIER QR LC ZP\*\*

**Item number:** 7500  
**Color:** 040 black, 331 olive, 346 coyote brown  
**Size:** Unisex

## TT PASSPORT SAFE RFID BLOCK

**Item number:** 7549  
**Color:** 040 black, 331 olive  
**Size:** 15 x 11 x 1 cm  
**Weight:** 40 g  
**Material:** T-Square Rip FD / CRYPTALLOY®

Readout-protected cover with a hook-and-loop fastener for EU-passport and other cards.

[1] Best RFID scan protection with TÜV tested RFID blocking material CRYPTALLOY® [2] Shielding against all frequencies and can be used for all cards

## TT CARD HOLDER RFID BLOCK

**Item number:** 7855  
**Color:** 040 black, 331 olive  
**Size:** 9,5 x 6 cm  
**Weight:** 15 g  
**Material:** 210 HD Nylon FD Eco / CRYPTALLOY®

Foldout sleeve with RFID readout protection for at least four credit cards, bank cards, key cards or ID cards in credit card format.

[1] Best RFID scan protection with TÜV tested RFID blocking material CRYPTALLOY® [2] Shielding against all frequencies and can be used for all cards [3] Space for at least four cards [4] Elastic strap closure

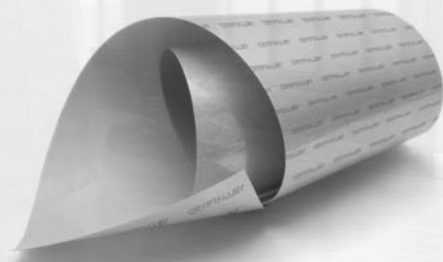

Tasmanian Tiger's RFID Block Series wallets, document cases and pouches offer 100% protection from data theft by radio-based readers or NFC smartphones with a readout app. The **Cryptalloy®** film built into the products securely shields radio waves of all commercial frequencies used in the field, making readout virtually impossible.

**TASMANIAN TIGER** uses **Cryptalloy®**, a special metal alloy made by Krypton Technologies of Munich, for its RFID Block products. Compared with regular metallised foils, coatings and fabrics of the same strength and flexibility that still allow a proportion of the radio frequency through, **Cryptalloy®** almost completely blocks the signal (remaining signal no longer measurable). **Cryptalloy®** has been tested by SGS/TÜV Saarland Foster GmbH, and is confirmed and certified as suitable for screening against the unauthorised reading of RFID chips (including remote chips, NFC) on commercial frequencies 125 kHz, 13.5 MHz and 900 MHz. What is significant is the protection on frequency 125 kHz. Protection against this frequency guarantees maximum protection against all the usual RFID frequencies.

**CRYPTALLOY®**  
RFID DOCUMENT SAFE

#### Possible consequences of data theft:

Identity theft, loss of credit, exposure of behaviour and movement profiles, unauthorised access to business and/or private premises, etc.

## TT WALLET RFID BLOCK

Item number: 7766  
Color: 040 black, 331 olive  
Size: 14 x 10 x 3 cm  
Weight: 90 g  
Material: CORDURA® 700 den / CRYPTALLOY®

Wallet with all-round security zip and RFID readout protection thanks to integrated CRYPTALLOY® foil.

[1] Best RFID scan protection with TÜV tested RFID blocking material CRYPTALLOY® [2] Shielding against all frequencies and can be used for all cards [3] Card and coin compartments [4] Foldable with transparent pocket for military and ID cards

## TT SMARTPHONE POUCH RFID BLOCK PRO

**Item number:** 8710  
**Color:** 040 black  
**Size:** 12 x 20 cm  
**Weight:** 65 g  
**Material:** CORDURA® 500 den / CRYPTALLOY®

Readout-protected smartphone case. By processing the composite material Cryptalloy and Cryptalloy Tex, signals in all mobile phone standards as well as in the areas of RFID/NFC, Bluetooth, WiFi/W-Lan, UMTS, GSM/ISM are shielded to the maximum.

[1] Best RFID scan protection with TÜV-tested RFID blocking material CRYPTALLOY® [2] Shielding against all frequencies and can be used for all cards [3] CRYPTALLOY®-Tex for suppression of mobile phone network signals, ISM, UMTS, Bluetooth, W-Lan, LTE and other electromagnetic waves.

## TT TABLET POUCH RFID BLOCK PRO

## TT SR 25\* / SR 38 / SR 38 DUAL / SR 50 DUAL

**Item number:** 7882\* / 7883 / 7887 / 7884  
**Color:** 040 black, 331 olive, 343 khaki, 346 coyote brown  
**Size:** 6 x 3,5 cm / 7 x 4,8 cm / 7 x 4,8 cm / 8 x 6 cm  
**Weight:** 22 g\* / 22 g / 22 g / 34 g  
**Material:** Acetal

Quick-release buckle for repairs and replacement, available in the sizes 25 mm, 38 mm, and 50 mm.

[1] Three sizes [2] Suitable for 25 mm webbing (SR 25)

\*, \*): 2 PCS / Set

## TT SR25 SAFETY HERMA QA (PAIR)

**Item number:** 7874  
**Color:** 040 black, 331 olive, 346 coyote brown  
**Size:** 65 x 40 mm  
**Weight:** 30 g (pair)  
**Material:** Acetal

Variable insert buckle, suitable for 25 mm webbing. The bar can be opened and allows threading into sewn loops or lasered slots. The parts of the buckle can also be combined individually with buckles of the same design, as no counterpart is required.

[1] Sold in pairs [2] Suitable for 25 mm webbing

## TT SHOULDER PAD 50 MM

**Item number:** 7211  
**Color:** 040 black, 331 olive, 346 coyote brown  
**Size:** 27 x 7 cm  
**Weight:** 40 g  
**Material:** CORDURA® 700 den

Shoulder pad to make carrying heavy loads easier. Absorbs the load transfer on the shoulder and fits on a strap up to 5 cm wide.

[1] Extra shoulder cushion for heavier loads [2] Secret pocket under hook-and-loop patch, e.g. for coins [3] NON-slip material [4] Hook-and-loop surface (loop) for patches etc.

# MATERIAL OVERVIEW

(Selection of materials)

**CORDURA® 500 DEN** (100% polyamide). Made from INVISTA high tenacity, air-jet textured Nylon 6.6 in 500 denier. The CORDURA® brand provides fabrics that are recognized for their long-lasting durability and resistance to abrasions, tears and scuffs; they are more durable than other fabrics. CORDURA® fabric offers a superior strength-to-weight ratio, making it a first-choice for durable fabrics.

**CORDURA® 700 DEN** (100% polyamide). CORDURA® in fibre thickness 700 den combines the high wear and tear resistance of the classic 1000 den fabric with the lightness of the 500 den fabric.

**CORDURA® WITH IRR PROTECTION.** Tasmanian Tiger manufactures tactical equipment in the color stone grey olive with certified IRR treatment. Both the CORDURA® materials as well as webbing, hook-and-loop fasteners and buckles meet the high German Bundeswehr standards TL 8305-0278 and TL 8305-0281 with regard to the IRR camouflage effect (IRR 650 - 1250nm / 10 - 42%).

The Japanese company **YKK** is the global leader in zipper manufacturing and has a vast array of products in its range. Tasmanian Tiger has used YKK zippers for many years in its collection, in particular the tear-resistant YKK zippers with RC (Racquet-Coil) technology.

The YKK Fastening Products Group is trusted worldwide for impeccable production standards and thorough quality control processes.

The South Korean plastic buckle manufacturer, Woojin, operates a production site in Vietnam, which means resource-friendly transport distances between our facilities. Woojin and Tasmanian Tiger have been working together for so many years we're almost like family. The relationship includes not just development coordination but also exclusive fabrication. Tasmanian Tiger uses **WOOJIN** components throughout its entire range of products.

The side release buckles, zipper pulls, etc. made by **WOOJIN** have inspired top designers worldwide to innovate the next generation of tactical products.

**T-SQUARE RIP FD** (100% polyamide). The very tight, special weave of the 210 den fibers makes this fabric extremely stable, but it remains extremely light. By using FD yarn (full-dull) the fabric gets a dull surface.

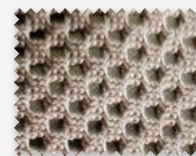

**420 HD NYLON** (100% polyamide). The classic 420 den Nylon material has proved itself in the „high density“ (HD) version as a good, very flexible basic material. The 420 den yarn gives it a very high tear resistance. The material is made waterproof by the triple PU coating.

**TEXTREME 6.6** (100% polyester). The textured polyester material in 600 den threads is robust, colorfast and versatile. PU-coated to achieve a weatherproof finish.

**CRYPTALLOY®** (aluminium alloy). Products with the specially developed tear-resistant material CRYPTALLOY® offer the highest level of protection against RFID/NFC attacks. The TÜV tested material blocks radio waves on all the usual RFID frequencies and can be used for all cards.

**HEAVY MESH** (100% polyester). Robust 250D PES mesh fabric, which is used for tear-resistant covers, inner pockets and water passages.

**T-COVER TEX** (100% polyester). This very light, waterproof material made out of polyester is pleasantly soft to the touch, and is used mainly for rain ponchos, rain covers and stuff bags.

**TPU 420 DEN NYLON** (100% polyamide). Extremely tear- and abrasion-resistant polyamide material, which can be processed open-edged due to its coating properties.

**T-Stretch** (100% polyester). This robust, abrasion-resistant and highly elastic material is used for small parts.

# NIGHT CAMOUFLAGE

## THE TT PRODUCT RANGE EQUIPPED WITH IRR PROTECTION

Tasmanian Tiger manufactures tactical equipment of the highest level and addresses the security issue of camouflage, under the observation of night vision devices, with an extensive product range.

Chest rigs and plate carriers, mission and medic backpacks as well as magazine pouches, tactical pouches and daypacks are offered in the color **stone grey olive with certified IRR treatment**.

Both the CORDURA® materials as well as webbing, hook-and-loop fasteners and buckles meet the high German Bundeswehr standards TL 8305-0278 and TL 8305-0281 with regard to the IRR camouflage effect (IRR 650 - 1250nm / 10 - 42%).

REFLECTANCE

Milliken  
**Tegris®**  
Thermoplastic Composites

## TEGRIS®

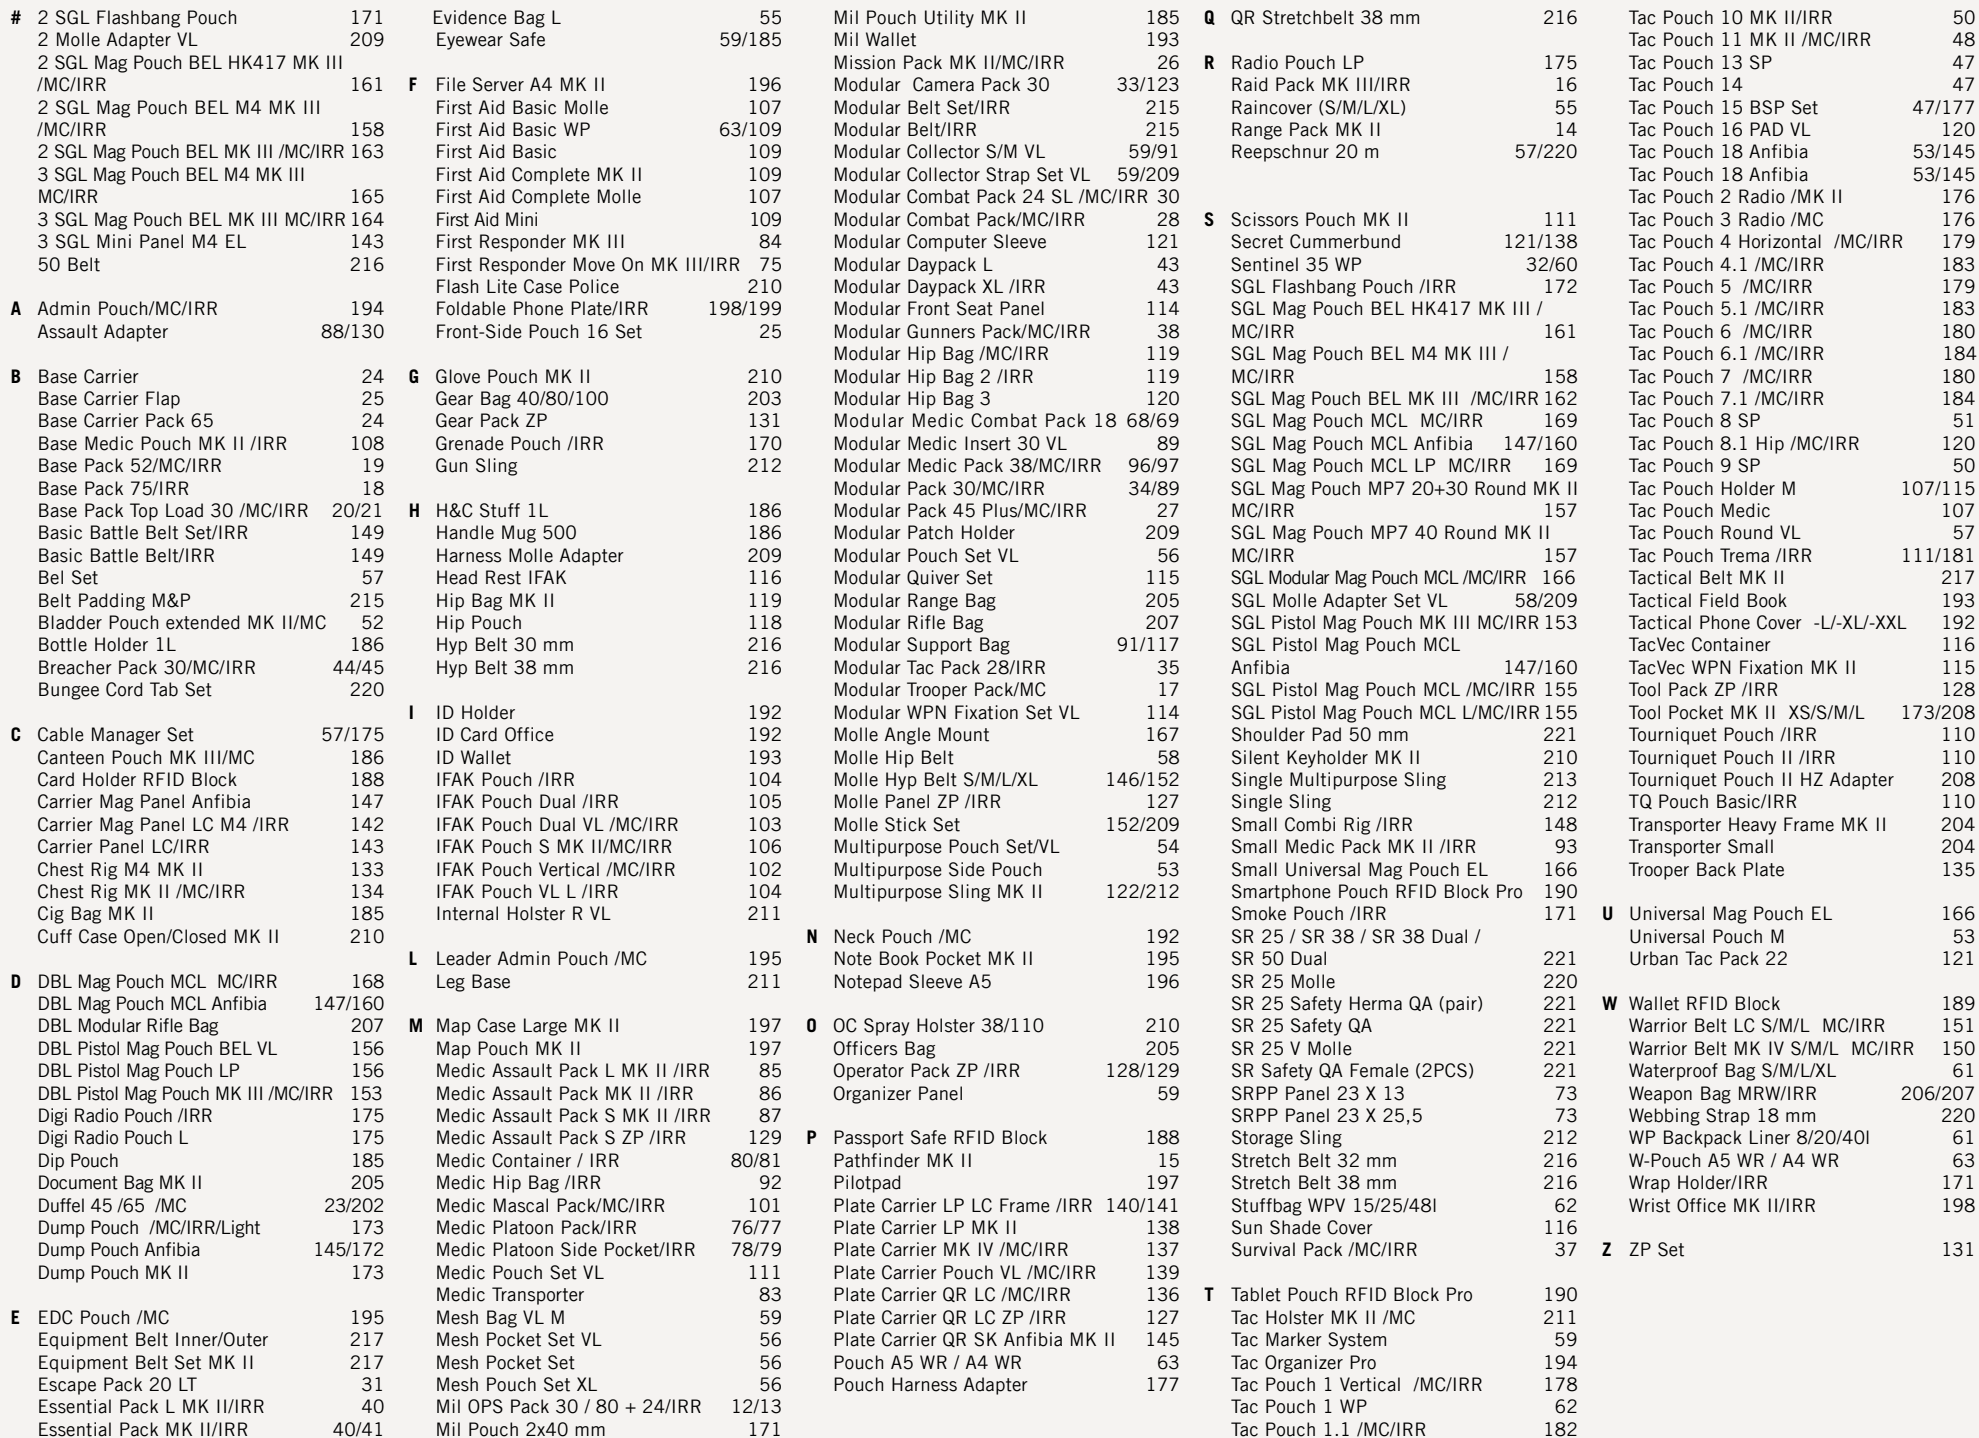

Tegris® is a thermoplastic composite material manufactured by the US company Milliken.

The material offers very high impact resistance and rigidity with low weight.

Specially developed **polypropylene yarns** are woven together, fused and formed into sheets in several layers. Tasmanian Tiger uses 8-ply and 12-ply Tegris® material.
